

# LDox<sup>7</sup>

## Deep cleans

Concentrated blend of synthetic, biodegradable detergents effectively emulsify oils, disperse dried particulates and lift soils into wash solution.

## Neutralizes problem odors

Over 7% active hydrogen peroxide reacts with persistent, mal odors that permeate fabrics. Eliminates stench from structural fires, tobacco smoke, cooking odors, organic decomposition and body fluids. Leaves fabric with the best fragrance ... none.

## Removes stains .. without pre-treatment

Oxygenated bleaching action safely removes urine, blood, fecal matter, vomit, perspiration and food stains.

## Cleaner rinse .. HE compatible

Low foam detergents and patented polymer additive hold dissolved soils in solution, prevent redeposition on fabrics and allow cleaner rinses with less water.

## Easy, Safer and Economical to use

One product cleans, brightens, destains and neutralizes organic odors. Eliminates possible chlorine damage to fabric or colors. Reduces or eliminates pre-treatment. And, requires as little as 1 ounce per load for normal soil conditions.

### Environmental & Safety Data

Contains no phosphates  
All biodegradable surfactants  
No harmful by-products in environment  
Closed loop package available

## Institutional Laundry Detergent Odor Neutralizer and Brightener

Powdered by Peroxide

Recommended for:  
Animal Hospitals & Veterinary Clinics  
Health Clubs & Spas, Schools  
Retirement Facilities, Fire Departments  
Fire Restoration Companies  
Healthcare & Elder Care Facilities
