Cold Solvent Degreaser with Natural Citrus Solvent

A nonconductive, multipurpose cleaning solvent made with natural citrus solvents to enhance cleaning effectiveness and provide significant deodorizing properties.

Uses: General cleaning and degreasing of electric motors and components, production equipment, parts, tools, molds, dies, printing presses and rollers, vending machines and packaging equipment.

Fast cleaning action ... dissolves adhesives, cosmoline, grease, petroleum oils, paraffin waxes, cutting oils, mastic, putty and tar.

Nonconductive ... dielectric constant in excess of 25,000 volts.

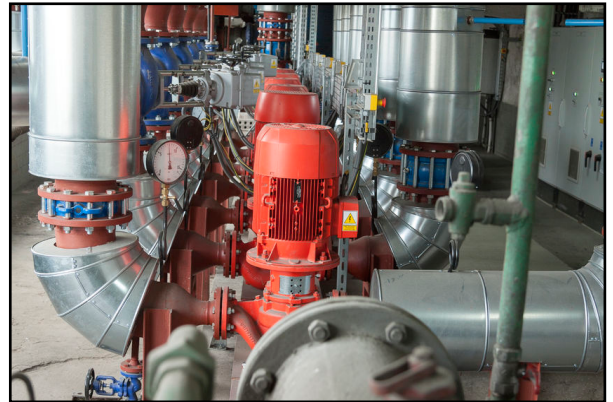

Low toxicity ... contains no chlorinated hydrocarbons or benzene derivatives.

Leaves no residue ... evaporates completely.

Pleasant to use ... controlled fuming, fresh orange fragrance.

Balance evaporation ... dries fast, but not too fast. Eliminates metal chill and moisture condensation caused by accelerated drying.

Surface safe ... harmless to metals, rubber, insulation, varnish, industrial paints and most plastics.
