

# Bowl Cleaners

## D.B.C. Daily Bathroom Cleaner

Disinfectant, Cleaner, Mildewstat, Virucide, Deodorizer. Effective against Antibiotic Resistant strains of Staphylococcus aureus and Escherichia coli. As well as, Herpes (types 1 & 2) and Pandemic 2009 H1N1 Influenza. The non-acid formula is safe on hard non-porous surfaces and has a clean fresh fragrance.

Use to clean and disinfect: Toilets and Urinals, Wash Basins, Counter Tops, Partitions and Walls, and Chrome and Stainless.

Product#: J11WDBC; Packed: Cs/12 quarts

Advantages: Non-acid safety  
Fast and efficient  
Pleasant, lingering fragrance  
Economical  
Contains corrosion inhibitors.

## T<sup>3</sup> Tub - Tile - Toilet Cleaner

Thickened 16% phosphoric acid-based bowl, porcelain and bathroom cleaner. Formula clings to vertical surfaces for increased cleaning power. Ideal for use in hard water areas, or other areas where lime scale, calcium salts and other deposits exist. Easily and quickly removes uric acid salts and other sources of bothersome odors. Pleasant mint scent leaves areas smelling clean and fresh. Extremely effective on a variety of surfaces and soils. Use where hydrochloric acid formulations cannot be used.

Product#: J11WDBC; Packed: Cs/12 quarts

Base: 16% Phosphoric acid

## Competitor II Bowl and Urinal Cleaner

A thickened formulation that cleans and deodorizes. Competitor II is effective as a one-step toilet bowl cleaner. Eliminates odor causing bacteria. Pleasant to use with a mint fragrance, leaving the area smelling clean and fresh. Priced for those with a limited budget.

Product# J11CBC; Packed: Cs/12 quarts

Base: 9% Hydrogen chloride

## NuClinger II Thixotropic Bowl Cleaner

NuClinger II, our premium porcelain toilet bowl cleaner cleans and deodorizes in a single step. It clings to the bowl surface for greater penetration into soils as it cleans and deodorizes. NuClinger II is formulated to remove unpleasant restroom odors, not mask them.

Removes water scale, calcium, lime, iron/rust and uric acid buildup without excessive scrubbing. It freely rinses and leaves the whole restroom smelling clean and fresh. Cherry-almond fragrance.

Product#: J11NU; Packed: Cs/12 quarts

Base: 9% Hydrogen chloride

## Step Up 15% Clinging Bowl Cleaner

A unique product with all the premium features of NuClinger II, plus 49% more hydrogen chloride for increased effectiveness on rust and mineral deposits. Effective thick formula quickly eliminates toilet rings, hard water stains, mineral deposits and rust stains, plus leaves a light mint fragrance. Will not harm plumbing and septic tanks.

Advantages: 49% more acid, faster acting  
Removes stains & hard water deposits  
Safer than high acid products

Product#: J11SU; Packed: Cs/12 quarts

Base: 15% Hydrogen chloride

## Heavy Duty 23% Toilet Bowl Cleaner

You can't drive a railroad spike with a tack hammer...sometimes the circumstances call for power. In extreme hard water areas or when fixtures have been too long neglected, a real heavy duty product is the only practical answer. With two and half times more hydrogen chloride than most products, Heavy Duty 23% makes short work of problem accumulation. Its powerful detergent system completes the job of turning grungy, smelly toilets into sparkling, sanitary fixtures.

Product#: J11HD; Packed: Cs/12 quarts

Base: 23% Hydrogen chloride
