CQ-128

**Cleaner - Disinfectant - Sanitizer
Deodorizer - Fungicide - Mildewstat - Virucide***

NEUTRAL - NO RINSE CLEANER

Formulated with high concentrations of water conditioners (chelates) and pure synthetic detergents, it readily lifts surface soils, trackage and scuff marks without alkaline bite that can dull gloss and shorten finish life. CQ-128 leaves no film or haze even with daily use. It is safe to use on all washable surfaces and reduces the potential for user skin irritation associated with high pH cleaners.

EFFECTIVE DEODORANT

Many common malodors are caused by bacterial activity, the growth of mold and mildew or putrefication. Cleaning with CQ-128 will eliminate the source of these odors and leave treated areas with a light clean fragrance.

ECONOMICAL

For non-medical applications like schools, offices, apartments, hotels, motels and industry, a 1 ounce per gallon dilution (128-1) will provide an effective cleaning and disinfecting solution at a use cost competitive to many ordinary (not germicidal) mopping detergents.
