Wayne®

Wayne-Away H.S.
Drain Opener

Hair & Soap Dissolvent for Restrooms, Showers and Salons

Professional strength ...
A concentrated blend of industrial grade chlorine, caustic and penetrants.

Pours through standing water ...
No need to remove water in pipe. Drops straight to the obstruction.

Fast acting ...
Dissolves hair and organic matter in minutes - not hours.

Thicker is better ...
Resists dilution as it passes through water. Hits obstruction full strength, not watered down.

Safer to use ...
Non-acid formula contains corrosion inhibitors for metal pipes. Safe on plastic too.

Most drain problems in restrooms and showers are caused by human hair. If drains aren't flushed with plenty of water, (many public buildings now use flow restrictive faucets.), wet hair tends to collect and mass at elbows and bends where it acts like a strainer, accumulating soap and debris in the mat.

Wayne-Away H.S. if formulated to dissolve hair... it really works in minutes. It's concentrated formula penetrates, coats and destroys hair mass so it will readily rinse away.

Fast, Efficient, Economical.
The answer to restroom, shower and salon drain problems.

Manufactured by:

Wayne®

Wayne-Away H.S..
Drain Opener

Hair & Soap Dissolvent for Restrooms, Showers and Salons

Professional strength

Pours through standing water

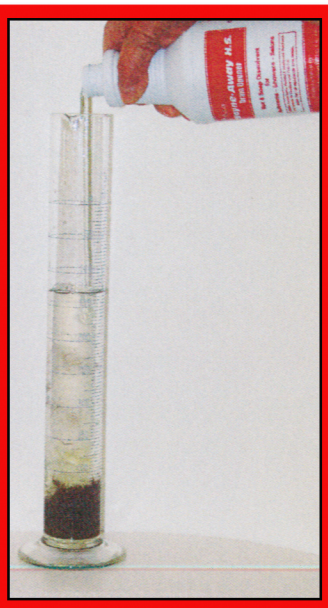
Dissolves hair, organic matter & paper

Fast acting, opens stopped drains in minutes

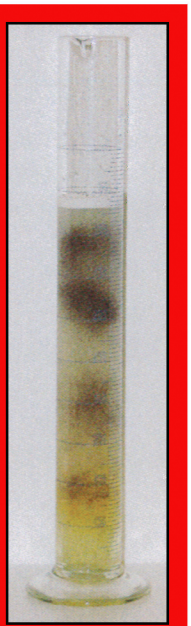
Thicker is better

Safe for plastic and metal pipes

Glass beaker, 1-1/2" dia. with 1-1/2" hair plug



4 oz. Wayne-Away H.S. sinks directly to plug. Foaming action begins.



2 minutes - Wayne-Away H.S. breaks plug, floats loose. Drain would be open.

In minutes, hair is dissolved and drain runs free.
