

# AUTO MATE A.M.P.

High Foam - High Performance Vehicle Wash For  
Brush or Cloth Automatic, Manual or Pressure Cleaning

*Cuts road film and common soils  
Lifts and dissolves bug residue  
Neutralizes road salt scum  
High concentrated*

Auto Mate A.M.P. is a high foam, mildly alkaline, built detergent ideal for use in brush or fabric tunnel wash systems.

It can be effectively used as a stand alone vehicle wash for routine maintenance, as a prep gun pre-spray for removing bug residue and road salt scum, or as a foam arch lubricating detergent when used with an alkaline pre-spray (TVW-2X) for extreme soil conditions.

Auto Mate A.M.P. is highly concentrated and must be diluted before use. Due to the variety of mixing apparatus, variances in machine volume, pressure spray patterns and water temperatures, the user should experiment with various dilutions to determine the most efficient and economical ratio for use.

## Great for Tunnel Washes

Lubricates brushes, prevents scratching. Can be used as a stand alone cleaner or arch foamer. Rinses clear and streak-free.

## Excellent Pressure Wash or Brush & Bucket Cleaner

Visible foam insures uniform application. Breaks soils fast ... Reduces brushing. Works with hot or cold washers.
