

COMPETITOR II

Bowl Cleaner
Cleans - Deodorizes

Detergent thickened formula

- ◆ Clings to vertical surfaces for improved cleaning
- ◆ Reduces waste
- ◆ Low acid level eliminates fumes
- ◆ Pleasant mint fragrance

Competitor II is formulated with a combination of 9% hydrogen chloride and a high concentration of detergents to maximize cleaning efficiency while building viscosity. Unlike thin, watery products that run off vertical surfaces before they have time to work, Competitor II coats and clings to the surface for complete removal of rust, lime and calcium deposits with a single application. When the job is done, Competitor II rinses easily and completely leaving the fixture sparkling clean and deodorized.

Product Placement

Competitor II is recommended as a one step cleaner and deodorant for toilet bowls and urinals in light to medium hard water conditions. Competitor II can be used on toilet bowls, urinals, ceramic and plastic tiles, shower walls, stainless steel fountains and other acid resistant surfaces.

Advantages

- ✓ Low acid ... no fumes
- ✓ Pleasant mint fragrance
- ✓ Contains corrosion inhibitors
- ✓ Thickened formula improves cleaning ... reduces waste
