Industrial Strength Rust Removing Laundry Sour & Neutralizer

High strength souring agent for use in industrial and institutional laundries. When used during the final rinse, this product effectively neutralizes alkali, hard water and chlorine residues which can cause fabric discoloration. Eliminates yellowing from iron deposition in hard water areas and improves overall fabric brightness. Restores the natural pH of cotton, synthetics and most fabrics. An essential component of a quality laundry chemical system.

- Brightens colors and whites
- Neutralizes detergent alkali
- Controls most iron and rust stains
- Safe on sensitive fabrics
- Speeds through rinsing
- Highly concentrated

Directions for Use

The amount of this product to be used will vary according to the load size, machine size, fabric type, water conditions and other factors. Your Service Representative will analyze these variables and set up dispensing equipment and usage concentration accordingly. In general, use 2 to 4 ounces of this product per 50 lbs. of load size where normal soil levels and water conditions are present.

Caution: Do not pour this product directly onto fabric as spotting will result. For use in commercial wash machines only.

Technical Specifications

Appearance	Colorless Liquid
Odor	Characteristic
pH (1% solution, 22°C)	<2.0
Foaming	None
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.98 ±0.1
Stability Range	40-100°F
Free Alkalinity (as Na2O)	None
Solubility (in H2O, 22°C)	100%
Phosphate Content (as P)	None

Product Number

A2728005

Packaging

5 gal. pail
