

Spot Master

Liquid Laundry Pre-Spotter and Stain Treatment

Wayne Spot Master is a fortified liquid detergent developed for use as a pre-wash spot treatment or after wash stain remover in institutional laundry applications. Formulated without caustic, bleach or petroleum distillates, Spot Master is gentle to fabrics and safer to use. It is an effective treatment for spots and stains caused by perspiration, human incontinence, blood, food, cosmetics and protein.

- Prevents stains
- Safe on fabrics
- Fast action
- Pleasant fragrance
- Compatible with commercial laundry systems
- Free rinsing

Directions for Use

Apply Spot Master full strength to affected areas. Saturate spot completely. Rub fabric to insure penetration and saturation. Wait a few minutes before laundering.
