

TANDEM

Fabric Softener & Neutralizer with Rust Removing Sour

Premium quality fabric softener combined with a powerful sour for use in automatic dispensing equipment in institutional and industrial laundries. Delivers outstanding neutralizing characteristics against alkaline, hard water and chlorine residues while imparting a soft, silky finish on all types of fabric. Eliminates yellowing caused by iron deposition in hard water areas and restores the natural pH of cotton, synthetics and most other fabrics. Reduces drying time, improves the efficiency of ironing and helps eliminate static cling.

- Neutralizes residual alkalinity
- Eliminates static
- Speeds ironing
- Eliminates ironer scorch
- Leaves fabric soft and fluffy
- Contains optical brighteners
- Eliminates build-up

Directions for Use

The amount of this product to be used will vary according to the load size, machine size, fabric type, water conditions and other factors. Your Service Representative will analyze these variables and set up dispensing equipment and usage concentration accordingly. In general, use 2 to 4 ounces of this product per 50 lbs. of load size where normal soil levels and water conditions are present. (Do not pour this product directly onto fabrics as spotting may result).

Technical Specifications

Appearance	Blue Liquid
Odor	Lemon Fresh
pH (1% solution, 22°C)	<2.0
Foaming	Moderate
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.90 ±0.1
Stability Range	40-100°F
Free Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None

Product Number

A2728605

Packaging

5 gal. pail
