◆ **One-Step Neutral Cleaner** ◆ **Disinfectant** ◆ **Deodorizer** ◆ **Bactericide**
◆ **Fungicide** ◆ **Virucide** ◆ **Mildewstat**

New Formulation ... ½ ounce dilution

Concept 256N is a concentrated ½ ounce per gallon neutral hospital disinfectant. It is a blend of a Dialkyl quat with the first generation ADBAC quat, commonly called the 5th Generation quat. Concept 256N has exceptional high soil and hard water tolerance. It is a pH neutral detergent that readily lifts even micelle soils without alkaline “burn” associated with other cleaners. This translates into a real world performance and is especially important where conditions exist that breed microbial pathogens which are difficult to control.

Broad Spectrum Kill

- ✓ SARS-CoV-2 (COVID 19 Virus)
- ✓ Human Corona Virus
- ✓ CA-MRSA (Community Associated Methicillin Resistant Staphylococcus)
- ✓ MRSA (Methicillin Resistant Staphylococcus)
- ✓ Staphylococcus Epidermidis Antibiotic Resistant
- ✓ VISA (Staphylococcus aureus Vancomycin Immermediate Resistant)
- ✓ VRE (Enterococcus faecalis Vancomycin Resistant)
- ✓ Avian Influenza
- ✓ HBV (Hepatitis B Virus,)
- ✓ HCV (Hepatitis C Virus)
- ✓ HIV-1 (Human Immunodeficiency Virus Type 1)

Deodorant Effectiveness

Concept 256N will neutralize many common malodors caused by bacterial activity, the growth of mold and mildew or putrefication. Cleaning with Concept 256N removes the source of these odors and leaves behind a fresh clean aroma.

Economical and Used By

At use dilution of 1/2 ounce per gallon dilution, Concept 256N provides an effective cleaning and disinfecting solution at a use cost competitive to many ordinary (not germicidal) mopping detergents. Concept 256N is used by: all health care facilities, schools, universities, veterinary clinics, child care facilities, hotels, motels and any where cross-contamination is a concern.
