

B.O.S.S.

CITRUS PROBLEM SOLVER

Problems. Not big problems, just problems. Every cleaning professional runs into those pesky little, aggravating problems that waste a lot of time and require a lot of effort in their solution. You know the ones...a smear of tar on a nice clean carpet or terrazzo floor, rubber kick marks on walls, lockers and doors, lipstick and shoe polish, adhesive goo and marker ink...the list goes on, and on, and on. So does the arsenal of products most of us assemble to beat them. What we don't need is one more, specialty cleaner to fill our shelves and use up our budgets. What we need is B.O.S.S. C.P.S., the multipurpose solvent cleaner designed to work on the toughest cleaning jobs. Made from a natural biodegradable base derived from oranges, B.O.S.S. C.P.S. achieves exceptional solvency without chlorinated solvents, petroleum distillates, caustics or phosphates. It's fast acting formula goes to work in seconds to wipe away graffiti, rubber marks, tar, hard set grease, candle wax and adhesive residues. It is safe, fast, pleasant and easy to use. Try B.O.S.S. C.P.S. on your problem jobs...make your life a little easier.

100% Active
High solvency
Multipurpose
Biodegradable solvent
Safe, fast and pleasant to use
Free rinsing
Contains no petroleum solvents

DIRECTIONS FOR USE

Test all surfaces on an inconspicuous area before using. Do not use on resilient floors. Do not use on plastic or pvc plumbing.

Carpet Spot Removal: Moisten a clean, white cloth with C.P.S. and work spot from the outside working in toward the center. Change cloth as it becomes soiled. Do not apply directly to carpet.

Candle Wax or Gum Removal: Use a bone scraper or the dull edge of a butter knife to remove large pieces. Remove residue by saturating a clean white cloth with C.P.S. and wiping.

To Deodorize Dumpsters, Garbage Cans, etc.: Dilute C.P.S. at a 32-1 ration (4 oz. per gal.) with water and apply liberally with a pump-up sprayer over area to be treated.

Grease Traps: Add 8 oz. of C.P.S. per gallon capacity. Allow to stand one or two hours. Flush with hot water.

Graffiti Removal: To remove lipstick, crayons, pencil and many inks, apply with a soft cloth. Wipe marks away and rinse with clear water.

Concrete Stain Removal: Apply C.P.S. directly to stain. Allow to soak for 5 to 10 minutes. Scrub with a stiff bristle, natural fiber brush (not plastic). Flush with clear water.

Rubber Burn Removal: Apply C.P.S. to a cloth or wiper. Wet affected area. Wipe off with damp cloth.

General Cleaning: Dilute C.P.S. with from 16 to 32 parts water (4-8 oz. per gal.). Apply with mop, sponge or cloth. Rinse with clear water.

Uses: Removes gum, grease, tar, lipstick, oils, crayons, adhesives, mastic, cosmoline, shoe polish, and rubber marks.

Cleans, degreases and deodorizes drains, grease traps, dumpsters, garbage cans, and waste chutes.
