Clear Bac

Foaming Hand Soap with Antibacterial Agent BZK

Leaves hands soft and clean

Reduces soap usage

Nonstaining

Pleasant fragrance

Contains aloe vera & glycerin

Studies show the average user of a liquid soap dispenser will push the dispenser bar 2.7 times per wash. Not because a single shot didn't put out enough soap ... it's because that little dab of soap didn't look like enough. That is why a quality foam soap system can cut soap costs 60% or more. ... they make a little dab into a satisfying dollop.

Wayne Clear Bac is a premium foam hand cleaner formulated to get the most milage out of any foam dispenser. A single application produces a handful of rich lather that retains a substantial feel even as water is added. The user can see and feel enough soap to discourage over use and unnecessary reapplication. The saving are automatic.

Clear Bac is formulated for use with foam generating dispensers. It generates a high volume of dense, rich foam that discourages overuse and promotes economy. Clear Bac contains BZK, a proven broad spectrum antibacterial agent, aloe vera and glycerin to soothe and condition skin. Clear Bac contains no artificial colorants that could discolor vanity or counter tops.

Packed 4 gallons per case.
