

Plex 40 Super Concentrate

Glass - Plastic - Stainless Cleaner

Product Advantages

Fast, streak-free cleaning

Plex 40 is a blend of water soluble solvents and wetting agents formulated for daily cleaning of hard, non-porous surfaces. It lifts and suspends oily soils, smudges and finger prints and wipes clean ... without streaks or smears.

Surface safe - Pleasant to use

Plex 40 contains no ammonia or amine derivatives that can cause soft plastics to haze or discolor. It is safe to use on thermoplastics, acrylics, Plexiglas and anti-glare window tints as well as glass, hard paints, laminates and bright metals. Plex 40 has no pungent fumes and a light clean fragrance.

Economy

At a dilution of 3 ounces Plex 40 per gallon of water, Plex 40 is an excellent daily spray cleaner for any surface not harmed by water.

Plex 40 is supplied as a manufacturing concentrate and must be diluted with water before use. To eliminate waste and insure economy and safe handling, the use of a controlled dispensing system is highly recommended. A complete selection of proportioning devices, dispenser cubes and secondary labels is available through your Wayne representative.
